1. The disclosure is objected to because of the following informalities, for example: the specification does not recite:

- a) Background of the Invention,

- c) Brief Description of the Drawing, and
- d) Detail Description of the invention.

Appropriate correction is required.

2. This application is informal in the arrangement of the specification. The following guidelines illustrate the preferred layout and content for patent applications. These guidelines are suggested for the applicant's use.

The following order or arrangement is preferred in framing the specification and, except for the reference to "Microfiche Appendix" and the drawings, each of the lettered items should appear in upper case, without underlining or bold type, as section headings. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:

- (c) Statement Regarding Federally Sponsored Research or Development.
- (d) Reference to a "Microfiche Appendix" (see 37 CFR 1.96).

(k) Drawings.

(l) Sequence Listing (see 37 CFR 1.821-1.825).

3. Claims 17-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claim 17, this claim is rejected to because the preamble of the claim is for testing open condition of a parallel port of a computer, but the body of the claim does not recite any means for testing open condition of the parallel port of the computer. A correction is required.

As per claims 18-20, these claims are also rejected because they dependent upon the rejected base claim.

As per claim 21, this claim is a multiple dependent claim. Applicant is requested to cancel this claim, or amend the claim to place the claim in proper dependent form, or rewrite the claim in independent form, including all limitations that describe in the drawings (Figs. 3-6).
